

THE MISSIONAL MARRIAGE STUDY

Session #6 – Conflict Recognition

The goal of this session was to allow couples to recognize patterns and trends concerning conflict within their marriage. In this session, only two questions were asked...

- 1.) What is the most common issue you conflict over in your marriage?
- 2.) What does conflict look like in your marriage?

What followed was a nearly two-hour discussion, where each couple authentically and honestly shared with the group some of the pitfalls and backgrounds concerning conflict in their marriage. What came of that night was the knowledge that all of us are normal (we all struggle), we all have work to do to improve this area of our marriage, and that Jesus is sufficient to help us!

No notes can duplicate what transpired that night.
